

Thanks to media consolidation, we are already seeing the abuses of a single company, Sinclair Broadcasting, using their position to require their stations to air a purely politically motivated film just prior to the election. Claiming that it is news, they are trying to hide the partisan nature of the film. If they are allowed to perform such an obvious tactic, then the citizens of the United States are being manipulated.

What makes this worse is the fact that they are using public airwaves to do it. When you have a few entities controlling the media, you lose objectivity and personal agendas replace the more balanced mix that would be in place with a wider base of owners.

Please prevent this egregious abuse of the airwaves.
